Help us keep the Harvest Fair strong.

Due to the pending closure of the Granville Village School, the GPA will not be running the Harvest Fair at GVS this year. The Granville Federated Church has stepped up and agreed to run the GVS site in hopes of helping to keep the Harvest Fair strong. However, we can't do it without some help. In recent years as we have added new aspects to Fair offerings at the Church, we have become stretched thin for volunteers. Adding a second site to our plate means that we will need even more volunteers than in years past. If you are able to donate some of your time, even just a few hours, during Harvest Fair, please contact Bobbi Ayers-O'Connell at 413-297-0445. We thank you in advance for your support.

Wednesdays 3-8

GRANVILLE FIRE DEPARTMENT

The Granville Fire Department & The American Red Cross are teaming up to install smoke alarms in Granville!

By Tim Rickis – GFD Firefighter & Public Relations Coordinator

Smoke Alarm Facts:

Working smoke alarms give early warning of danger and are the single most important way to prevent fatal fires. They double the chances of surviving a fire.

Every second counts in a fire. Working smoke alarms provide residents with early warning of fire and allow residents to exit a home quickly. Working smoke alarms save lives.

You should have working smoke alarms on every level of your home, outside bedrooms, at the top of open stairs and at the base of cellar stairs.

Maintain smoke alarms. Test them once a month and change the batteries twice a year, unless they are the 10 year maintenance free type which do not require battery replacement but still require testing.

Smoke alarms must be replaced every 10 years. Alarms are labeled with their date of manufacture. It there is no label, they are older than 10 years and must be replaced.

How GFD and The American Red Cross can help:

On Saturday October 28th, 2017, The GFD and The American Red Cross will be installing smoke alarms in the local area. You must contact GFD at (413) 357-8572, no later than October 20th to provide your contact information (name and number) so we can schedule your appointment. You are eligible to have up to three alarms installed if:

Your house was built before 1975, and

You currently have no smoke alarms, or your current alarms are older than 10 years old

Together, we can improve the life safety and wellbeing of our Granville residents!

The all-volunteer members of The Granville Fire Department are proud to serve our residents 24/7. Please visit our web page at http://

www.granvillefire.altervista.org/ or find us on Facebook! For Public Relations contact Tim Rickis at firedept@townofgranville.org

Restoring the American Chestnut Tree to the Eastern Forest of the U.S.

Presented by John Meiklejohn. For centuries the American Chestnut was a majestic and useful giant of the eastern U.S. forest. It's bountiful annual harvest of nuts served man and wildlife alike, and the rot-resistant nature of its wood made it a valuable resource in many industries. However, in the early 20th century, an invasive Chestnut Blight from Asia decimated the American Chestnut population. For the past 35 years, The American Chestnut Foundation [TACF] has persevered with increasingly sophisticated research and progress towards restoring the American Chestnut. John will speak about the Foundation's ongoing restoration efforts up and down the East Coast, including the research orchards right here in Granville.

2018 Lectures

More lectures are in the works for after the new year; details will be announced as dates are finalized. If you have ideas for presentations that you would like to see, or would like to volunteer to give a lecture, please call or email Bill Fluhr at 607-339-9443 or waf8@cornell.edu.
